ABOUT INTRENZE

Intrenze is a world-class third-generation tannery that produces natural leather upholstery preserving our heritage and the values. We have been serving our clients for the past two decades with our expertise, quality, and timely delivery. Our leathers are exported worldwide. Our talented employees, with traditional and technical knowledge, make the upholstery natural and deliverable on time.

Our innovative, creative designs reflecting the changing world we live in, combined with time and skills, result in the perfection of style, comfort, and durability, ideally suited for homes of today. Alongside supplying a wide range of leather for seating, Intrenze Leather has expanded to offer leather cutting, sewing, embroidery, and debossing to add detail to leather projects.

Concern for the environment is integral and fundamental to Intrenze. We operate an energy plant where process waste is recycled in an eco-friendly environment.

We are located in South India in a nature surrounded area, namely Pernambut, Tamil Nadu.
